

KOLBE'S FORGENT® SERIES COMPLEMENTARY MULTI-SLIDE DOORS

Designed for strength, durability and energy efficiency, the Forgent® Series is the perfect solution for new construction or replacement projects. This high-performance product line offers two multi-slide door configurations to complement Forgent Series All Glastra® products.

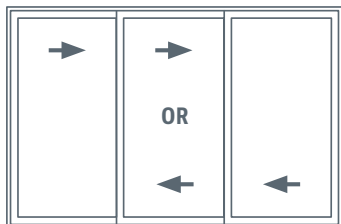

COMPLEMENT YOUR DESIGN WITH EXPANSIVE OPENINGS

The Forgent Series' complementary multi-slide doors offer indoor-outdoor living solutions with larger openings, broader views, and convenient passage to the landscape. Two configurations are available to suit the expanse of your space.

Forgent Series complementary multi-slide doors provide:

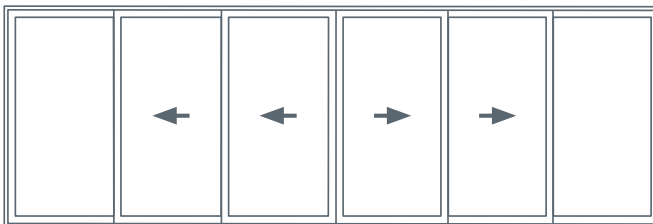

- 3- or 6-panel stacking configurations
- Energy-efficient, dual-glazed Solar Low-E glass
- Contemporary Square handle set with dual-point lock
- Bronze anodized sill
- AutoSlide™ automation options

CONFIGURATIONS

IMPACT
RATED

The 3-panel multi-slide door meets HVHZ impact requirements and accommodates a maximum 12-foot-wide by 8-foot-tall opening. Two doors can be configured to slide in either direction, with a stationary end panel. Custom sizes are also available.

The 6-panel multi-slide door unit accommodates a maximum 23-foot-wide by 8-foot-tall opening. The end panels are stationary, with bi-parting operation. Custom sizes are also available.

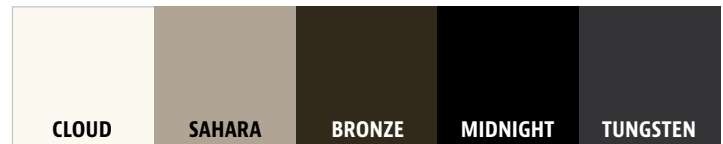

FORGENT® SERIES COMPLEMENTARY MULTI-SLIDE DOORS

OPTIONS

FINISHES

Forgent Series offers popular exterior and interior finishes to coordinate with hardware selection, trim and décor. The Cloud and Sahara colors are integral to the Glastra® material, while Bronze, Midnight and Tungsten can be applied in various combinations, as shown in the chart.
